Looking to Screen a Large Opening?

The Mirage Horizon 5000 has what you're looking for!

With its 5" cassette and side retention system, this versatile and robust system can screen openings up to 19'2" in width and 14' in height. Whether you are looking for protection from annoying flying insects, shelter from the sun or simply an oasis from the wind, the H5000 can provide it all.

- ✓ Keep your recreational space or garage free from flying insects
- ✓ Cool and shade your patio and interior rooms from the sun
- ✓ Reduce the cost of heating and cooling your home
- ✓ Reduce wind in recreational areas
- ✓ Provide privacy from street views and neighbors

Blow Out Wind Speed for the H5000

Note: this data applies to screens measuring 12' in height

Why choose a Mirage?

- ✓ Heavy duty, extruded components
- ✓ Optional brush sealing weight bar - superior seal against grout lines, pavers and uneven surfaces
- ✓ Appears and stows away remotely at the touch of a button or with an economical crank operator
- ✓ Fabrics and colors to suit your decor
- ✓ Low maintenance
- ✓ Recognized leader of motors and controls (Somfy)
- ✓ Sold, installed and serviced by local dealers with roots in your community
- ✓ Motorized option attaches to a standard 110v power outlet
- ✓ Proudly made in North America

Side Retention System

This illustration shows a cross section of the side retention system. The system retains the edges of the screen's mesh, keeping the mesh from blowing out of its tracks. It also allows the screen to act as a block, reducing the affects of wind in your screened area when in use.

Increase the comfort of your home, inside and out.
